Asunto: Respuesta a radicado número **10034717** del 13 de diciembre del 2023. Correo electrónico del 13-12-2023.

Estimados:

Reciba un cordial saludo de la CEO -Compañía Energética de Occidente S.A.S. E.S.P., para nosotros es muy grato atender sus inquietudes ya que nos permiten continuar trabajando en el mejoramiento de nuestro servicio.

En atención a su solicitud del asunto, relacionado con *“Solicitud revisión facturas y matrícula 225523 Edificio Edgar Negret Dueñas.”*, de la manera más cordial nos permitimos informar que:

Inicialmente, es importante indicar que conforme lo establecido en la Resolución CREG 015 del 28 de enero de 2018, la forma para el cobro de la energía reactiva para los usuarios del servicio de energía en un sistema de distribución cambió; de un esquema que solo consideraba el neto de la energía reactiva de un usuario, sin tener en cuenta que esta fuese inductiva o capacitiva (Resolución CREG 097 de 2008), se pasó a un esquema que considera el hecho que la energía reactiva es inductiva y capacitiva, y definió métodos diferentes para el cobro de cada una de estas energías reactivas.

Para la energía reactiva inductiva se fijó en la Resolución CREG 015 de 2018 que el exceso sobre el 50% del consumo de energía activa, se cobraría. En cambio, para la energía reactiva capacitiva se estableció que la totalidad de esta fuese cobrada.

Es pertinente indicar que esta forma de cobro de la energía reactiva inductiva en exceso y energía reactiva capacitiva se podía iniciar a facturar a partir de la fecha en que quedó en firme la resolución en mención, es decir 4 de febrero de 2018, no obstante, la Compañía venía facturando la energía reactiva en exceso de acuerdo con lo definido en la Resolución CREG 097 de 2008.

Radicado No. 10034717

Por lo antes mencionado a partir del periodo de agosto de 2020 aparecerá en su factura el concepto “Consumo Reactiva Cap”.

Es importante aclarar que esta información se dio a conocer a nuestros usuarios en el diario “El Nuevo Liberal” en la edición impresa del 13 de febrero de 2020.

Teniendo en cuenta que el cliente genera consumo de reactiva, en razón a la Resolución CREG 015 de 2018, a partir de enero del 2022 se inició a facturar la energía reactiva con la variable M (01), y así progresivamente hasta junio del 2022 con variable M (06), la cual permaneció hasta mayo de 2023. En la factura de junio del 2023 continuo con la variable M (07), y progresivamente en julio se factura con variable M (08), y agosto con la variable M (09), la cual se multiplica por la tarifa de reactiva de cada periodo.

En la factura de diciembre del 2023, se realizó la facturación con la variable (12) razón por la cual se realizó el cargo del valor.

El cobro de la energía reactiva inductiva se realiza cuando la reactiva supera el 50% de la activa hora a hora; el cálculo se realiza así: $\text{exceso} = \text{Reactiva (hora a hora)} - (\text{Activa (hora a hora)} / 2)$.

Se procede a realizar el análisis del consumo facturado durante los meses de julio a diciembre de 2023.

Se verifica la matriz de consumos de los periodos mencionados, en donde se puede observar el consumo, horario de activa, reactiva y el total de los excesos es la cantidad en kVarh y valor que se refleja en la factura como consumo reactivo:

MES	Activa kWhD	Reactiva Inductiva kVarhD	Reactiva Capacitiva kVarhR
Dic-23	3037.9	390.1	224.4
Nov-23	2872.9	396.4	226.8
Oct-23	2796.7	390.7	225.5
Sep-23	2502.1	184.5	283.5
Ago-23	2275.6	65.4	352.6
Jul-23	2476.5	91.5	319

Para la energía reactiva inductiva se fijó en la Resolución CREG 015 de 2018 que el exceso sobre el 50% del consumo de energía activa (hora a hora), se cobraría.

Para la energía reactiva capacitiva se estableció que la totalidad de esta fuese cobrada.

Esta forma de cobro de la energía reactiva inductiva en exceso y energía reactiva capacitiva se podía iniciar a partir de la fecha en que quedó en firme la resolución en mención, es decir 4 de febrero de

2018, no obstante, la Compañía venía facturando la energía reactiva en exceso de acuerdo con lo definido en la Resolución CREG 097 de 2008.

En relación con la tarifa de reactiva, CEO como empresa prestadora del servicio público domiciliario de energía eléctrica está sujeta a las disposiciones que defina la Comisión de Regulación de Energía y Gas – CREG en todos los temas tarifarios. Para el transporte de energía reactiva, la CREG determinó la forma de cobro de este concepto a través de la Resolución 015 de 2018, “Por la cual se establece la metodología para la remuneración de la actividad de distribución de energía eléctrica en el Sistema Interconectado Nacional” y de la Resolución 095 de 2022, “Por la cual se modifican algunas disposiciones de la Resolución CREG 015 de 2018”. En esta última resolución, en el artículo 2, la Comisión define el valor de la variable M, incluida en la fórmula para el cálculo del valor a cobrar por el transporte de energía reactiva de la siguiente forma:

“Artículo 2. Transporte de energía reactiva. El artículo 16 de la Resolución CREG 015 de 2018, modificado por el artículo 1 de la Resolución CREG 199 de 2019, quedará así:

Artículo 16. Transporte de energía eléctrica. Los OR o los usuarios finales pagarán por el transporte de energía reactiva cuando superen los límites establecidos en cada caso, de acuerdo con lo establecido en el capítulo 12.

El OR podrá conectar equipos de medida de energía reactiva para identificar a aquellos usuarios que por su consumo de energía reactiva estén obligados al pago de la misma conforme lo establecido en esta disposición y a la instalación del medidor correspondiente.

Parágrafo 1. Durante el mes siguiente al de entrada en vigencia de la presente resolución, los comercializadores de energía deben enviar información relativa a la aplicación del capítulo 12 de la Resolución CREG 015 de 2018, incluyendo lo dispuesto en este artículo, a todos sus usuarios no residenciales y a aquellos que tengan medición de energía activa y reactiva.

Parágrafo 2. A partir de los consumos de enero de 2020 la variable M, de que trata el Capítulo 12 de la Resolución CREG 015 de 2018, se reiniciará con un valor igual a 1 y permanecerá fijo en este valor hasta diciembre de 2021. A partir de enero de 2021 se contarán los doce meses antes de su incremento” (Subrayado fuera del texto).

Se concluye que los consumos facturados corresponden a la demanda real del servicio, de conformidad con lo dispuesto en el artículo 149 de la Ley 142 de 1994, la Compañía no se encuentra en la obligación de adelantar una revisión previa con el objeto de determinar la causa del alto consumo.

En caso de requerir visita técnica, respetuosamente informamos que la solicitud puede ser realizada a través de nuestros canales de atención, telefónico, personal o escrito en las oficinas de Servicio al Cliente, nuestra página web (www.ceoesp.com.co) y los canales virtuales que hemos dispuesto para

que se comuniquen de manera más fácil y ágil con nosotros, desde la comodidad de su casa. El costo de la revisión y los materiales utilizados debe ser asumido por el cliente.

Lo anterior de conformidad con lo establecido en la cláusula 29 del Contrato de Condiciones Uniformes:

“PROPIEDAD DE LAS CONEXIONES DOMICILIARIAS. (...)

Parágrafo: ***El cambio, reparación o mantenimiento que deba hacerse al medidor o a la conexión en general, salvo en el período de garantía, correrá por cuenta del suscriptor o usuario que es quien los está utilizando”.***

En cuanto la energía reactiva inductiva y capacitiva, se sugiere tomar las medidas técnicas respectivas ya que la variable M incrementa mensualmente, se aconseja asesorarse de personal especializado en la temática; CEO reitera su intención de prestar el acompañamiento técnico y comercial para la implementación de soluciones dirigidas a compensar la energía reactiva en exceso a través de su área de Multiservicios. Para más información, diríjase a nuestros puntos de atención al cliente de CEO o en las líneas comerciales 310-6513968, 320-6885669 y 312-3389260.

“Conforme al artículo 154 de la Ley 142 de 1994, contra esta decisión procede el recurso de Reposición ante el Representante Legal de la Compañía Energética de Occidente S.A.S E.S.P. y en subsidio el recurso de Apelación ante la Superintendencia de Servicios Públicos Domiciliarios, los que deben interponerse en un mismo escrito y dentro de los (5) cinco días hábiles siguientes a la fecha de notificación, de la presente decisión. No se requiere de presentación personal, ni de intervención de abogado, en la sustentación debe expresar claramente los motivos de inconformidad y acreditar el pago o cumplimiento de lo que reconoce deber, relacionar pruebas que pretende hacer valer e indicar nombre, dirección, para efectos de notificación. Recurso presentado sin el lleno de estos requisitos será rechazado. Artículo 77 y 78 del Código de Procedimiento Administrativo y de lo Contencioso Administrativo”

Notifíquese el presente oficio al suscriptor. Si no se pudiere efectuar la notificación personal al cabo de los cinco días del envío de la citación, se dará cumplimiento a lo dispuesto en el artículo 69 del Código de Procedimiento Administrativo y de lo Contencioso Administrativo.

Cualquier inquietud u otra información requerida, con gusto la atenderemos.

Cordialmente,

PAOLA ANDREA VILLAQUIRÁN REYES
